THE CANE GROWERS' QUARTERLY BULLETIN

VOLUME XXXI
CONTENTS

	Page
Editorial	3
Meringa Attains the Half-Century, by J. H. Buzacott	4
Calcium Ammonium Nitrate, by C. M. McAleese	7
Johnson Grass Can Be Eradicated, by I. T. Freshwater and J. Wright	8
Don't Speculate on Fertilizers, by J. R. Burge	10
How Is Your Mercurial?	10
Technologists Award to Mr. J. H. Nicklin	11
Control or Rhopaea Cane Grubs in Southern Queensland, by C. L. Toohey	12
Select Pre-emergent Herbicides Carefully, by P. J. Nielsen	16
Cicadas, by G. Wilson	21
Ten Years of Leaf Scald Resistance Trials in North Queensland, by B. T. Egan	23
Can Our Planting Operations Be Improved, by B. T. Egan	25
The Virus of Ratoon Stunting Disease	26
Soil Testing and Fertilizer Advice, by J. M. Sedl	27
Promising Results from Sélection on Meringa Experiment Station	30
Mosaic Disease in the Moreton Area, by R. W. Mungomery	31
Sugar Growing at Sherwood, by H. E. Young	32
A Method of Applying Nitrogen through Irrigation Water, by W. J. Draper	33
Making Crops Waste Less Water	34
The Soldier Fly Problem at Bundaberg—1966 Ratooning, by R. B. Moller	35
Editorial	39
Laboratory Tests with Insecticides, by A. Macqueen	40
Bound Copies of Quarterly Bulletin	41
Bureau Publications on Display, by O. W. Sturgess	42
Deterioration of Cane after Harvesting, by B. T. Egan	44
Sucrose Phosphates Reduce Tooth Decay	46
Variety Trends in the Central District, by C. G. Story	47
The Soldier Fly Problem in Central Queensland Cane Areas, by R. W. Mungomery	48

	Page
Control of Merremia Vine in the Far North	50
Reso Tourists Visit Meringa, by J. H. Buzacott	51
The Cane Grub Pest in the Mulgrave Area, by P. Volp	52
Frenchi Grubs in the Burdekin, by J. Wright	57
Obituary: Albert George Claire	58
Investigations Into the Control of Leaf Scald by Sett Treatment, by D. R. L. Steindl	59
Q.S.S.C.T. Conference, 1968	60
Butt Weevils Damaging Young Plant Cane, by B. E. Hitchcock	61
Legume Varieties in the Far North—1966-67 Season, by C. M. McAleese	62
Modern Fertilizer Development, by K. C. Leverington	63
The I.S.S.C.T. Congress, by N. J. King	65
Save Trojan at Clare!, by C. G. Hughes and I. T. Freshwater	66
Behaviour of Setts, by C. A. Rehbein	67
Near Enough is Not Good Enough, by G. A. Christie	68
Arrowing in the Bundaberg and Moreton Districts, by H. E. Young	69
Banded Chlorosis at Mackay, by C. G. Story	70
Badila in the Burdekin, by J. Wright	71
Approved Varieties, Changes Forecast	72
Editorial	75
Q.85—Some Excellent Trial Results, by I. T. Freshwater	76
Magnesium Deficiency	77
Soldier Fly Damage to Cane	78
Effect of Red Rot in Pindar on Juice Quality	79
Control of Blue Heliotrope In The Bundaberg-Isis Area	80
Testing for Disease Resistance	81
Raw Sugar Quality	83
Ammonium Nitrate as an Explosive, by I. J. V. Stewart	84
Fibre Determination in New Cane Varieties	85
Some Factors Affecting Water Penetration, by J. Wright	86
Control of Ratoon Stunting Disease, 1966/67	88
Habana Oat Grass at Mackay	93
Copper Requirement of Cane	94
Fort Herbert, by H. E. Young	95
Changes in Varieties Grown	96
Queensland-Bred Canes	97
Use Only Crude BHC for Childers Cane Grub Control, by J. Anderson	98
Damage to Cane by Herbicides	99
New Cane Varieties	100
Legume Breeding Progress	101

Page

Germination Failures Are Expensive, by C. L. Toohey 102
Weed Control Investigations at Ingham, by L. G. W. Tilley 103
Varieties of Sugar Cane Approved for Planting, 1968 107
Editorial 111
The Parkinson Cane Weeder and Stubble Shaver, by I. J. V. Stewart 112
Soldier Fly in Cane in Far North 116
C.P.29-116 in the Proserpine Area, by A. A. Matthews 117
Zoologist to Investigate Rat Control 117
A Comparison of Some Irrigated Varieties on the Southern Sugar Experiment Station, by R. B. Moller 118
Sugar Cane at Cooktown, by C. M. McAleese 121
A New Stool Remover, by J. F. Usher 122
Windburn in H.48-3166, by L. K. Izatt 124
Herbert River District Approval for Q.83, by A. W. Ford 129
N, P and K. 130
Soldier Fly Control by Dieldrin in Third Ratoons, by B. E. Hitchcock 131
Hail Storm Damages Cane at Mackay, by E. F. Copley 133
Sclerophthora Disease at Mackay, by C. G. Story 134
Additional Precautions against Mosaic in the Mackay-Proserpine Area, by R. W. Mungomery 136
Underground Water Replenishment in the Burdekin Delta, by J. Wright and I. T. Freshwater 138

VOLUME XXXII

Editorial 3
Soldier Fly—Past, Present and Future, by R. B. Moller 4
Sulphur Nutrition of Sugar Cane, by J. M. Sedl 6
Honour for Bureau's Director 8
Fertilizer Requirements of Sugar Cane in the Isis District, by C. D. Jones 9
R. W. Mungomery Retires 11
Officers of Sugar Cane Technologists Societies 12
Life History Studies on Soldier Fly at Mackay, by B. E. Hitchcock 13
Q.63 Shows a Rapid Rise in the Burdekin Area, by I. T. Freshwater 15
Some Methods Used to Aid Harvesting of Flood Damaged Cane, by C. M. McAleese 21
H.48-3166 Will Ratoon, by H. L. Boyle 23
Cowpea Breeding by the Bureau, by J. C. Skinner 24
Obituary—John Willoughby Inverarity 29

Page

Q.87 and Q.88—Two New Varieties for the Central District, by E. A. Pembroke and A. A. Matthews 30
Is Early Heat Treatment Possible?, by C. A. Rehbein and J. J. Boylan 33
The Problem of Legume Seed, by C. G. Story 34
Field Hygiene, by L. G. W. Tilley 36
Editorial 39
Q.89 and Q.90—Two New Varieties for the Far North, by C. M. McAleese 40
Approved Varieties, Changes Forecast for 1969 42
Drainage Work is Vital in the Moreton District, by C. L. Toohey 43
Renovation of Bundaberg Laboratory 44
Cane Diseases in August, by C. G. Hughes 45
Usage of Insecticides for Grub Control, by G. Wilson 46
Weed Control Trials with Ametryne, by C. M. McAleese 47
Nitrogen—When Should it be Applied, by C. M. McAleese 48
Dieldrin Can Be Dangerous, by W. J. Draper 49
Red Rot Disease and Q.83, by B. T. Egan 50
International Soil Science Congress 52
The Hawaiian Rat Problem, by T. D. Redhead 57
Watch Out! R.S.D. Is Still on the Warpath, by B. T. Egan 59
Mr. J. H. Webster, Board Member 60
Johnson Grass in the Lower Burdekin—Past, Present and Future, by I. T. Freshwater 61
Chlorotic Streak Investigations in the Year 1967-68 64
A Filter System for Hot Water Treatment Tanks, by R. H. Robinson 65
Does a Contractor Harvest Your Crop? 66
Cane Deterioration Tests, Fairymead Mill, by P. G. Atherton and L. K. Kirby 67
Fertilizers and Profit, by A. I. Linedale 68
Award to Bureau Technologist 70
Watch Those Supplies 70
Harvest Varieties Wisely, by J. A. Currie 71
The 1967 Crushing Season 72
Editorial 75
Mossman Growers Beware! A New Grass Pest, by L. G. W. Tilley 76
What's Wrong with This Cane?, by B. T. Egan 77
Insecticides for Soldier Fly, Bundaberg, 1969, by R. B. Moller 78
Syndicated Farm Drainage—A Positive Answer, by C. L. Toohey 80
The Beet Sugar Threat 82
Q.84 Approved for Herbert River Mill Areas, by A. W. Ford 83

	Page
Unusual Pig Damage, by C. M. McAleese	84
Think About Fertilizers!, by J. Anderson	85
Visit of British Members of Parliament, by J. H. Buzacott	87
Plant Breeding in the 1967-68 Season	88
Ground Pearls—Margarodids, by G. Wilson	93
Relative Effects of Commonly Used Nitrogenous Fertilizers, by J. Wright	96
Fertilizer Advisory Service	98
Economics of Pre-emergence Weed Control	98
How Much Did Rats Cost You?, by C. M. McAleese	99
A Broadcast Seed Planter, by A. W. Ford	101
Cane Cutting Record	102
Plant Breeding Progress	103
New Cane Grubs: Use the Old Remedy, BHC, by G. Wilson	104
The Ratooning of Q.85 Is Satisfactory, by I. T. Freshwater	105
Sugar Technologists' Conference	106
Varieties Approved for Planting in 1969	107
Editorial	111
A Guide to Correct Harvesting in the North, by C. M. McAleese	112
Harvester Comfort for $400, by E. F. Copley	114
The Fiji Disease Virus Particles, by D. R. L. Steindl	116
False Economy with Fertilizers, by A. I. Linedale	117
Leaf Scald in Q.63, by C. G. Story	118
New Harvester Elevator, by A. A. Matthews	119
The Reaction of Some Approved Varieties to Drought in the Southern Area, by J. Anderson	121
Non-Arrowing N.Co.310?, by J. E. Barnes	123
Protect Your Q.87 and Q.88, by H. L. Boyle	124
The Old Order Changeth, by J. H. Buzacott	129
Further Infestations of Frenchi Grubs in the Burdekin, by C. R. Nalder	131
Coot Damage in January, by L. K. Izatt	132
J. H. Nicklin Retires	133
Production of Drought Resistant Varieties in South Queensland, by J. E. Barnes	134
Q.83 and Red Rot—What Lies Ahead?, by B. T. Egan	135
Lopping and R.S.D. Infection, by C. G. Hughes	136
Mole Drains, by A. V. Rudd	137
Yield and C.C.S. Responses to Irrigation, by R. B. Moller	139
Brix—C.C.S. Table. A Correction	140
Queensland Sugar Technologists Conference	140
Mixing Farm Chemicals, by I. J. V. Stewart	141
A Machine for Easier Weighing of Cane in Experimental Trials, by I. T. Freshwater	143
